

2009 Cessna 182T Skylane N5101U
Price: \$384,500

The 2009 Cessna Skylane, with its 230 h.p. powerplant, offers a blend of speed, range, safety, capability, price and cost of ownership. This mighty aircraft lifts and impressive 1082 lbs. of useful load, climbs to altitudes in the high teens and cruises at 145 kts. The 87 gallons of useable fuel will give you over six hours of endurance and, if you want to increase your payload by 138 lbs., load on 64 gallons of fuel and stay aloft for over 5 hours. Garmin's New Synthetic Vision technology can be added as an option.
