

2002 Cessna T182T Turbo Skylane N529PT
Price: \$249,500

This 2002 Cessna Turbo Skylane, with its 235 h.p. powerplant, boasts a 1040 feet-per-minute climb, a ceiling of 20,000 feet and cruise speeds of 160 kts. The 87 gallons of useable fuel will give you over six hours of endurance and, if you want to increase your payload by 138 lbs., you can load on 64 gallons of fuel and stay aloft for over 4 hours. The four place built-in oxygen system is sufficient to supply the pilot with over 5 hours of oxygen. In addition to the NAV II avionics option, the aircraft has been equipped with a EI Graphic Engine Monitor, a Shadin fuel flow computer, NEXRAD weather and traffic. **The crankshaft AD is not applicable to this aircraft.**
